

SG1A Tasker JT4-087-90 (31 Jul 90)

Target: 33 foot S/V (described in [redacted] case 076)

SG1A Background: The 33 foot S/V described in the case as [redacted] possibly picked up a load of drugs in the past three days. It is probably enroute to, or through, the Yucatan Channel to a location on the Gulf Coast of U.S. It is unclear whether this S/V is C/S [redacted] and whether it is actually carrying drugs.

EEI:

1. Where is the S/V now?
2. Is it carrying drugs?
3. What is its destination/intention?
4. Provide any associated information available? (concentrate on operational details, attempting to get a name or callsign, if possible).
